## Compound Guide:

### STREET

Compound: **Organic**  
Friction: **0.29 - 0.32**  
Temp range: **0 - 450degC**

# W1

This pad is ideal for:

- Upgrade Street Use / Sports driving

### PERFORMANCE

Compound: **Semi-metallic**  
Friction: **0.34 - 0.37**  
Temp range: **0 - 600degC**

# W3

This pad is ideal for:

- Performance Street Use / Light Trackday

### TRACKDAY

Compound: **Metallic**  
Friction: **0.40 - 0.43**  
Temp range: **100 - 750degC**

# W5

This pad is ideal for:

- Light vehicle Circuit / Rally / Hill climb

### COMPETITION

Compound: **Metallic**  
Friction: **0.48 - 0.53**  
Temp range: **100 - 850degC**

# W7

This pad is ideal for:

- Heavy vehicle Circuit / Rally / Hill climb

### BF-Racing 1ltr Brake Fluid

Dot Rating: **5.1**  
Dry Boiling Point: **338degC/641degF**  
Wet Boiling Point: **212degC/413degF**

This brake fluid is ideal for:

- All race, performance and street use
