

SPRINT CIRCUIT

High Friction

- Competition only Brake Pads
- Semi-Professional motorsport use only

Professional class brake pads that have the highest heat tolerance and effectiveness in the Winmax range as well as break-neck coefficient of friction stopping power. These pads are also designed to work with competition vehicles with the booster removed.

Temp Range
100-850°C

Friction
0.48-0.53Mu

Material
Metallic

Notes
Circuit Only
